

WRECK CAMP

Wreck Camp is facilitated by the Office of New Student and Sophomore Programs. It is an extended orientation experience for incoming students that brings together new and current students to jump-start the college experience in a fun "summer camp" setting. Wreck Camp assists students in their transitions to Georgia Tech by helping them develop diverse social networks and strengthening their ties to the Institute while introducing them to the Institute's culture and traditions. For three days and two nights, incoming students go with current student leaders to an off-campus retreat center where they share experiences in which they learn more about Georgia Tech, its traditions, and one another.

The Office of New Student and Sophomore Programs is part of the Division of Student Life.
