

UNDERGRADUATE EMBEDDED CERTIFICATE IN STRATEGY AND INNOVATION

Strategy and Innovation, as a practice, develops and integrates other functions – such as finance, marketing, and organizational behavior – to help us learn how firms gain and sustain competitive advantage. Strategy and Innovation focus on creating and capturing value for stakeholders with novel ideas, products, services, processes, and business models. While chief financial officers make financial decisions and chief marketing officers make marketing decisions, chief executive officers make decisions on corporate strategy and innovation.
